

## 2023 Student Research Case Study Challenge Tentative Official Rules

These are the tentative Official Rules that will govern the Society of Actuaries (SOA) Research Institute 2023 Student Research Case Study Challenge (“Challenge”). These tentative rules will be superseded by final rules posted on the [Challenge page](#) on [www.soa.org](http://www.soa.org) at the time that the case study is released. In these rules, “you” and “your” refer to an eligible team (“Team”). By providing a submission in response to this Challenge, Teams acknowledge compliance with these Official Rules.

The SOA Research Institute would like to share participating students’ contact information, including names, university affiliation and email addresses, with Valani Global, a sponsor of the Challenge. The SOA Research Institute will ask all students on all Teams for permission to share their contact information; the SOA Research Institute will share with sponsors the contact information of only students who enter the Challenge and explicitly agree for the SOA Research Institute to do so.

### 1. ENTERING THE CHALLENGE

The case study will be released by 5:00 p.m. U.S. Central Standard Time on Friday, January 20, 2023. ### 2. CHALLENGE SUBMISSIONS

Recommendations regarding submissions:

- Show the Team name and brief description of file content in the filename of the submitted files for quick identification; for example, “Team ABC Report.”
- Do not show email addresses on or in the report.
- When transmitting the submission, forward the response received upon submitting the intent to participate form to [research@soa.org](mailto:research@soa.org), copying all team members and faculty advisor, and attach the report and any supporting files.

Submissions must meet the following requirements:

- Teams must be comprised of two to five students who are enrolled at the same university (“Team”). There is no limit on the number of Teams that may participate from a university.
- Each Team is allowed to submit only one entry in this Challenge. In the event that a Team submits more than one entry in this Challenge, the latest submission received prior to the Entry Due Date And Time will be judged.
- A Team’s submission and all supporting work must be completed solely by the Team. All submissions must be the original work of the Team and created in response to this Challenge. Submissions found in part or entirety to be other than original work created for this Challenge will be disqualified.
- The cover of the submitted report must state the Team’s name, university affiliation, and names of each Team member.

- The email transmitting a Team’s submission must include the Team name, Team’s university affiliation, and names and valid email addresses for each Team member.
- Submissions must be in English and follow all specifications and requirements set forth in the section of the case study that is titled “Submission Requirements”. Adherence to the specifications and requirements, including length, will be considered during judging.

By submitting your work to this Challenge, you are agreeing to provide the SOA Research Institute with a license to use your submission, in accordance with Section 5 of these Official Rules. Teams of submissions selected as one of the top three submissions will receive a prize and a grant for your university, and such Teams agree to transfer copyright in their submissions to the SOA Research Institute.
